A BCI fingerprinting/request must be initiated prior to seeing patients and the results received within 30 days. If you have completed a BCI test within the past **6 months** (for another job, school etc.), you may be exempt from completing another fingerprinting. In this case, you will fill out a BCI record request form at orientation which we will send to the Ohio BCI on your behalf.

Caregiver USA will front the cost of your BCI/FBI fingerprinting. We require fingerprint completion at **FastFingerprints**, through which we have a contract for direct company billing. This expense will **be deducted out of your 2nd pay check.** If you have lived within Ohio for the past 5 years, you only need to complete the BCI fingerprinting. If you have lived outside of Ohio within the past 5 years, you will need to complete both BCI and FBI fingerprinting.

Send the results to:
